

# RADICAL MEN

## A 10-WEEK FOUNDATIONAL GROUP FOR MEN TO DEEPEN PRESENCE, INTIMACY, AND SEXUALITY

Many men leave at least 50% of their presence and power untapped, instead choosing to cut off from their bodies, feelings, and relationships. They do all the “right things,” yet still feel empty and unfulfilled, with a sense that something is missing from their lives.

### Do you find yourself:

- Feeling insecure about your sexual presence and potential?
- Avoiding or maintaining surface relationships, or desperately clinging to them?
- Lost in pornography or other addictions?
- Feeling overwhelmed, overworked, stressed, and just “too busy” to appreciate your life?
- Lacking a clear sense of purpose and meaning?

This group is an opportunity for men in leadership to make an even stronger impact. Entering into a community of men who are committed to calling each other forth into presence and intimacy, we’ll move beyond the superficial ways of relating, drop the false pretenses and personas, and create an atmosphere of depth, meaning, and authentic connection.

### In this foundational group, you will have the opportunity to:

- Experience deep and profound connection with other men
- Source and engage from your depth rather than the surface persona
- Discover a new paradigm for how to “be a man”
- Create meaningful relationships that support, challenge, and inspire you to be your best self
- Integrate spirituality, sexuality, leadership, and intimacy

Utilizing experiential practices and body-based modalities incorporating breath, movement, sound, awareness, and interpersonal interaction, we’ll expand beyond the mind into the heart and body. We’ll ground the theory in transformative experiences and experiential practice to create present-moment and lasting changes in your life. This group is for men who are ready to take the risk to discover and live on your personal edge in a safe, challenging, and supportive environment.
